What did God do on each day of Creation?

A:

Day 1 - Separated the light, naming it "day," from the darkness, "night."

Day 2 - Created the firmament, separating the waters below from the waters above, and called it "heaven."

Day 3 - Created the seas and the Earth, vegetation, seed-bearing plants, and fruit trees.

Day 4 - Created the sun, moon, and stars (to give light to the Earth).

Day 5 - Created the sea creatures and birds.

Day 6 - Created cattle, creeping things, and beasts of the earth, man—male and female.

Day 7 - Rested.
Challenge Cards are a tool that takes advantage of the amazing ability of children to memorize large quantities of information before their minds get all cluttered up like adult minds! There are multiple creative ways to use this tool, so feel free to try different techniques to see what works for your family. Remember that as young children grow and mature, they will have more “hooks” in their brain on which to hang these facts. Don’t be overly concerned that they do not understand everything at a young age.

Each lesson has three (sometimes four) questions that give the highlights of “who, what, when, where, and how.” These questions, when memorized over the course of the school year give a framework and chronology of history that will eventually work into the long-term memory. It’s highly recommended that you review them regularly as you move through the study of history. You will notice that the answer to each question is (usually) a complete sentence. For example, “Who was Otto I?” is answered as: “Otto I (sometimes called ‘Otto the Great’) became king of Germany in 936 and expanded his empire through war and marriage.” rather than just “He was king of Germany in 936.” This is to enable the children to have context and not just “shortcut” the information.

**GAME SUGGESTIONS**

**HIDE IN PLAIN SIGHT**
Take a few of the Challenge Cards and hide them around the house; some cards with the answer side up, some with the question side up. The cards have to be visible without moving anything to see them. When a card is spotted, the student must provide the information from the side not seen. For example, if the card is found “question side up,” the student must provide the answer. If the card is found “answer side up,” the student must provide the question.

**SHINE A LIGHT ON HISTORY**
This is played like “Hide in Plain Sight,” except it is played in one very dark room and students have to find the cards using flashlights.

**GO FISH**
Use the Challenge Cards to play the traditional children’s card game “Go Fish.” In this version, a “match” is composed of a Challenge Card question and its corresponding answer card.

**CHALLENGE CARD FOOTBALL**
Draw a small football field on paper or on a dry-erase board or a table marked with painter tape. Mark off the yard lines. Each team should pick a name and choose their end zone. Place a football (fold one out of paper or draw one and cut it out; make it no more than 2 inches long) on the 50-yard line. Place the stack of cards next to the field. The team that is up must correctly answer the question on the card in order to move 10 yards. If correct, they go again. If incorrect, the other team gets an “interception” and then must give the correct answer to that question to move 10 yards. However, if the second team also answers incorrectly, they “fumble” and the correct answer is read aloud. The play goes back to the first team with a new question card. Reward seven points for each touchdown.

**“MOTHER, MAY I?”**
Have students stand on a line while the “Mother” stands on a parallel line some distance away. When it is their turn, the student says “Mother, May I take two steps forward?” Then “Mother” says, “Only if you can answer this question.” If they answer correctly, they may move forward the number of steps (or jumps, hops, somersaults, etc.) that they asked for. If they don’t know the answer, they must stay where they are. If the student asks to take a lot of steps, give them a difficult question, but if the student only asks to move forward a little, give them an easier question. (If they ask to take way too many steps forward, just reply “No, you may not.”) The first student to reach the line “Mother” is standing on wins.
Q: What did God do on each day of Creation?

Q: What is our purpose still?

Q: What did God do on each day of Creation?

Q: What task did God give man and woman after He created them?

Q: What labor did God give Adam in the Garden of Eden?

Q: How long did Adam live and why is that important?
Lesson 2

What is our purpose still?

A: Our purpose is to glorify God and enjoy Him forever.

Lesson 1

What task did God give man and woman after He created them?

A: God instructed man and woman to multiply, fill, and rule the earth.

Lesson 1

What did God do on each day of Creation?

A: On the seven days of Creation, God:
Day 1 - Separated the light, naming it “day,” from the darkness, “night.”
Day 2 - Created the firmament, separating the waters below from the waters above, and called it “heaven.”
Day 3 - Created the seas and the Earth, vegetation, seed-bearing plants, and fruit trees.
Day 4 - Created the sun, moon, and stars (to give light to the Earth).
Day 5 - Created the sea creatures and birds.
Day 6 - Created cattle, creeping things, beasts of the earth, man – male and female.
Day 7 - Rested.

Lesson 1

How long did Adam live and why is that important?

A: Bible scholars think that Adam lived about 900 years, which means that Adam had time to teach many generations about God (he was a firsthand witness).

Lesson 2

After Adam and Eve were banished from the Garden because of their disobedience, what happened to them?

A: Adam’s work became hard (thistles and thorns). Eve had pain in childbirth and did not want to submit to her husband.

Lesson 2

What labor did God give Adam in the Garden of Eden?

A: Adam was to tend the Garden and name the animals.

What was the main purpose of the pyramids?
A: Pyramids served as the tombs for kings and pharaohs of Egypt.

What are hieroglyphics?
A: Hieroglyphics are picture words of the Egyptian language used for thousands of years.

Name the two land divisions of early Egypt. Which one was farther south along the Nile River?
A: In early Egypt, the land was divided between Upper Egypt and Lower Egypt. Upper Egypt was actually farther south along the Nile River.

What story did the ancient Greek philosopher Plato make up that might really be about the Minoans?
A: Plato made up the story that became the legend of the lost (sunken) city of Atlantis.

What happened to the Minoans?
A: It’s not known for certain why the Minoan civilization disappeared after about 800 years—possibly a volcanic eruption wiped them out.

Where did the Minoans (also called Cretans) live?
A: The Minoans lived on the island of Crete near southern Greece on the “land bridge between Asia and Europe.”
Q: Who was not allowed to participate in or even watch the Olympic Games?

Q: Where and when did the Olympics begin?

Q: How did the Hindu religion begin?

Q: Who settled the Indus Valley (India) originally (around 2500 B.C.)?

Q: What is the caste system?

Q: What poems/stories is Homer best known for?
Women were not allowed to watch or participate in the Olympic Games, but they had their own running events in a festival called Heraea, named for the goddess Hera.

The Greeks started the Olympics with just foot races in 776 B.C. on the plain of Olympia in Elis, Greece.

The caste system is a way of separating people into ranks where the quality and opportunity of their lives are predetermined and unchangeable, based on their birthplace and occupation.
